

Test Data Strategy:

- On new QA Automation environment we need to create a **One Time Setup** with following test data:
 - Create Brandscope Admin
 - Create Supplier
 - Create Retailer
 - Create Agent
 - Create Brand
 - Create Release
 - Create Territory
 - Create Supplier user
 - Create Retailer user
 - Create Agent user
 - Assign release
 - Assign Territory
 - Import DLS
 - Import ATS
 - Create Discount Scheme
 - Create Pricebook
- Before suite:
 - Database dump
- After each test case:
 - Database cleanup
